 UNITED STATES

An international education is closer than you think.

All these spots are just north of the border, in B.C., Canada. As a student at Trinity Western University, they'll be right in your backyard.

Trinity Western is Canada's number one Christian university. Our combination of rigorous academics, accomplished professors, a top athletics program, and faith foundation makes for a world-class education.

Only 40 minutes from Vancouver, TWU offers a true multicultural experience. But you'll still be in good company—one third of our students are from the US, and if you ever miss home, the border is only 20 minutes away. Vancouver is known for stunning mountain vistas and ocean waves—no wonder it was selected to host the 2010 Olympic games!

The experience you gain as you work closely with professors on research projects, assistantships, internships and travel studies sets you apart as a leader. Plus, TWU is fully accredited so you can go on to graduate studies anywhere in the world.
